It is Subject of Important Conference Held at the White House.

CONCLUSION REPORTED

Navy Department Will Not Allow Troops to be Landed on the Isthmus.

(By Associated Press.

WASHINGTON, Nov. 10 .- An important echference concerning the Panama situstion was held at the White House to-day, just prior to the formal meating of the Cabinet. The participants in the conference were President Roosevelt, Behator Hanna and members of the Cabinet. .The decision reached, if any, was not discussed. It is understood, however, that the discussion was purely informal and not intended in any manner to be decisive

As Senator Hanna left the White House he chatted frankly. He said that he and the President had not discussed the question of the chairmanehip of the Republican National Committee. fact," said he, "that matter was not mentioned to-day. It's a dead issue any

how."

"We talked of a variety of topics," continued the Senator, "among them the Panama situation. That is not a political question—not even a technical one. The people of this country want an istimian canai built and they want it built by the Panama route and they propose to stand by the President in the matter of constructing the canal by that route."

pose to stand by the President in the matter of constructing the canal by that route."

Senator Hanna was asked whether, in his opinion, it would be necessary to enact now legislation to provide for negotiations between the United States and the Republic of Panama for the construction of a canal. He replied that that was a question for a lawyer to snewer. He felt that a new treaty would be necessary, of course, but did not think serious difficulty would be encountred negotiating a cahal treaty with Panama.

QUICK RUN.

The Navy Department is advised that Rear-Admiral Glass, commanding the Pacific station, arrived at Panama to-day with the cruiser Marbiehead and the gunback Concord, having made a quick run from Acapulco. Their consort, the monitor Wyoming, was not able to keep up with the two other vessels, and, probably, will not reach Panama before Thursday. By virtue of his rank, Admiral Glass will have supreme command over the naval forces in the vicinity of Panama, and in case of a juncture of the forces at Panama and Colon he would have command of all operations.

There is no expectation here of a hestile crash on the isthmus in the immediate future, for it is believed that the Colombian government, when fully advised of what has happened, will accept the inevitable, and not attempt to cend troops to attack Panama in the face of the United States naval vessels guarding the approaches.

The State Department was notified to-

send troops to attack Panama in inface of the United States naval vessels
guarding the approaches.

The State Department was notified today that the Colombian government had
established a censorship over cablegrams
destined for the interior of Colombia,
reaching Buena Ventura. This practically cuts off free communication between Bogota, the capital of Colombia,
and the outside world.

In a disputch received a few days
ago at the State Department from Mininter Beaupre, he announced that he had
dedded to refrain from taking advantage
of his leave of absence, which was immédiately available, until Marcu. No explanation is offered for the change in
Mr. Beaupre's plans, but it is surmised
that he foresaw the approaching revolution and desired to be at his post when
the separation came. No apprehension
is felt for the Minister's personal safety
at Bogota, though it is realized that his
lot may be an unpleasant one.

PARIS, Nov. 10.—The French government of the Ropublic of Panama,
The instructions forwarded by Foreign The instructions forwarded by Foreign Minister Deleasse to the French consul-st Panama authorized him to have re-lations with the new government. The instructions are substantially the same as those sent from Weahington to the Article Street consulest Panama, and

as those sent from Washington to the United States consul at Panama, and will have the effect of giving the same recognition of the new regime as the United States has already given. A formal recognition will follow later when the new government is fully organized, but the instructions of the consul definitely establish the attitude of France toward the new republic.

M. Delcasse's instructions follow the receipt of ample assurances of the purpose of the new regime to carry out the obligations of Colombia concerning the canal concession and other French property rights. The reports of the consulates showed that the new conditions are apparently stable, with the separative maintaining order and exercising undisputed authority.

Germany Has No Intention of Interfering in the Isthmus.

(By Associated Press.)

SERLIN, Nov. 10.—Foreign Secretary Richhoften informed Ambassador Tower to-day that there is no truth whatever in the report of the intention of Colombis to appeal to Germany and nothing is known of any intention to make such an appeal. The foreign secretary sesured the ambassador that Germany has no interest in the Panama matter, and that the question of an interference in Panama upon the part of Germany does not exist. Baron Von Richthoften made these statements in an earnest and formal maner and wished them to be communicated to the United States gov. ernment, which the ambassador accordingly has done.

The provisional government at Panama has received a telegram from President Marroquin, of the Republic of Colombia, giving assurances that the Panama canal bill would most certainly pass Congress next August, and that General Reyes was on his way to the Isthmus to make proposals looking to peace and the saving of the national honor.

The provisional government has sent a letter to General Reyes, which will reach him on his arrival at Savanilla, advising that it is useless for him to come to Panama, as his mission is a hopeless one.

CASE OF ALLEGED DYNAMIRTE

Hustings Court yesterday morning and consumed the remainder of the day, without conclusion.

It took until late in the evening to hear the witnesses for the prosecution, each one of whom was closely cross-examined by counsel for the defense. At 6 o'clock an adjournment was taken until 10 o'clock this morning, and it is not likely that the hearing and arguments will be concluded before late this evening.

The charge against Johnson is that he placed dynamite and torpedoes on the track at Thirty-first and Calswood-Avenue one night last July, the result of which was a battered car and a "shocked" motorman.

Johnson is alleged to have confessed to Detective W. P. Fisher, of the Baldwin Agency, that he had placed the explosives on the track, and that he also accompanied a party of men to Barton Heights one night during the strike for the purpose of burning the residence of Manager Huff and hanging Mr. Huff. This plot was frustrated.

Fisher won the confidence of Johnson on the profession that he is a Bainter and a sympathizar. With the strikers, and swore on the stand that Johnson had told him upon various occasions that he put the explosives on the track. After rooming with Johnson for several days and getting fully into his confidence. Fisher suggested they take a trip to Norfolk.

Then it was that the confession was again made, in a room at the Gladstone Hotel, with four witnesses was a sergeent of police of Norfolk; another, one of the Baidwin detectives; a third, the manager of the hotel, and the fourth, a disinterested citizen. All of these gentismen testified yesterday that they heard "Yank" make the confession, and they also stated that he was sober when he did so.

Those who testified yesterday were Motorman Tutwiler. Conductor Goodrich, of

also stated that he was sober when he did so.

Those who testifled yesterday were Motorman Tutwiler. Conductor Goodrich, of the battered car; J. F. Maher, a Passenger and Power Company employe: L. L. Scherer and G. M. Fisher, Baldwin desectives; M. B. Perry, of the Gladstone Hotel, and E. G. Gwynn, sergeant of police of Norfolk.

Fisher's testimony was corroborated by by Mestra. Scherar, Perry and Gwynn. The defense will attempt to prove an alibit and to show that if Johnson did make the statements attributed to him, they were made while he was drunk and in no condition to know what he was talking about
